The Languages Of Tolkien's Middle-Earth: A Complete Guide To All Fourteen Of The Languages Tolkien Invented

Synopsis

This is the book on all of Tolkien's invented languages, spoken by hobbits, elves, and men of Middle-earth -- a dictionary of fourteen languages, an English-Elvish glossary, all the runes and alphabets, and material on Tolkien the linguist.

Language: English

ISBN-10: 0395291305

ISBN-13: 978-0395291306

Product Dimensions: 4.4 x 0.6 x 7 inches

Shipping Weight: 8 ounces (View shipping rates and policies)

Average Customer Review: 3.8 out of 5 stars [See all reviews](#) (74 customer reviews)

Best Sellers Rank: #52,540 in Books (See Top 100 in Books) #26 in [Books > Literature & Fiction > History & Criticism > Genres & Styles > Science Fiction & Fantasy](#) #26 in [Books > Science Fiction & Fantasy > Science Fiction > History & Criticism](#) #55 in [Books > Literature & Fiction > History & Criticism > Regional & Cultural > European > British & Irish](#)

Customer Reviews

This is a terrible, massively inaccurate book. It is filled with misinformation and egregious errors. These are not simple typos, they are serious problems that will greatly misinform the reader at every turn. There are not just a few errors, there are more than one hundred! The more I look, the more errors I find -- multiple errors per page! I wish I could change my vote to ONE STAR. If you buy this book for yourself or another person, you will only spread misinformation. This book does not include anything from The History of Middle-Earth, but that is not a severe problem, since including all of that would require several volumes. The chapters on Hobbit, Dwarven, and Rohirric names seem fine. But the sections about Elvish languages and the dictionary contain an unacceptable number of serious errors, misspelled words, and wrong information. How can you learn to speak Elvish from a book where the words are spelled wrong? Here is a list of [some of] the errors that I found.

1. Consonant mutation, an essential part of Sindarin grammar, is totally ignored. You just can NOT learn or use Sindarin without the consonant mutation. In the Glossary and Dictionary:
2. Several words and names are assigned to the wrong language (including aiya, Altariello, And^oni^f, Aros, Baran, Bereg, Carn D^fm, Golfimbul, kal, khelek, le, Morgoth, oial^f, omentielvo,

Shagrat, Sindarin, tark*, tarkil, Turgon). Many of these were correctly identified in the Quotations Translated chapter, while others are identified in the Silmarillion or Lord of the Rings, so this is clearly a case of sloppy editing.*an Orkish word, listed under Quenya!3. In the Dictionary, Noel lists "Hobbit" as a language separate from Common Westron.
