Once Broken Faith: An October Daye Novel

Synopsis

New York Times-bestselling October Daye series author Seanan McGuire "Top of my urban-paranormal series list!" "Felicia Day! Includes a brand-new map and original bonus novella! Politics have never been October Toby • Daye's strong suit. When she traveled to the Kingdom of Silences to prevent them from going to war with her home, the Kingdom of the Mists, she wasn't expecting to return with a cure for elf-shot and a whole new set of political headaches. Now the events she unwittingly set in motion could change the balance of modern Faerie forever, and she has been ordered to appear before a historic convocation of monarchs, hosted by Queen Windermere in the Mists and overseen by the High King and Queen themselves. Naturally, things have barely gotten underway when the first dead body shows up. As the only changeling in attendance, Toby is already the target of suspicion and hostility. Now she needs to find a killer before they can strike again and with the doors locked to keep the guilty from escaping, no one is safe. As danger draws ever closer to her allies and the people she loves best, Toby will have to race against time to prevent the total political destabilization of the West Coast and to get the convocation back on track and if she fails, the cure for elf-shot may be buried forever, along with the victims she was too slow to save. Because there are worse fates than sleeping for a hundred years.

Customer Reviews

Seanan McGuire's October Daye series is showing no signs of slowing down. This installment gave

me all the things I love about these books. It's engaging, with plenty of action and great pacing. The world-building is interesting, consistent, and relevant to the story. And most importantly, McGuire gives me characters I care about. She draws them with depth and history. She makes me feel like I know them. I'm invested in their losses and wins, their friendships and enemies, and every step they take on their path to an HEA. Once again here, Toby is dragged into the politics of the Fae. This time, the nobility is gathering to decide whether to allow the use of that elf-shot cure Walter devised in the last book. Toby was such a vital part of how the cure came about, the Queen of the Mists insists on her testimony. Of course, nothing is as simple for Toby as that. One of the nobles is killed and Toby is the one tasked with finding his killer, while her loved ones move into the line of fire. One of the best things about these books is watching how Toby's various relationships have evolved. Not just with Tybalt, though I am a huge fan of that romance, but with all of these other major players in her world. I love seeing her with the Luidaeg. That woman is such a power; she is head and shoulders above all these pretentious pureblooded Fae who think Toby beneath them. Yet the bond between Toby and the sea witch has become one of the touchstones of these books. At the same time, we see the connections Toby has forged with Arden, Diandra, and others. We see how her relationships with them --with Quentin-- with Sylvester --all of these key characters-- have completely changed her life. Toby is a hero. She lives her life, committed to living up to that.
