Customer Reviews

This book is politically incorrect and national standards are outdated. The book content is only good for test taking practice, but the content is too focused on Opera and none of that appeared on the test I actually took. Do not buy unless you are taking it for review of how to answer questions which sometimes comes in handy. NYState offers only ONE PRACTICE TEST, but it was actually more helpful than this one with a load of tests as the content is not the same as the UPDATED info you really need to know.
