# Modern Education Finance And Policy (Peabody College Education Leadership Series)

## Synopsis

This first text in Allyn & Bacon's new Educational Leadership series from Peabody College, clarifies the complex financial issues facing educational administrators and presents them in a clear and engaging manner. This text was developed by the leading scholars in school finance as part of a series from one of the leading Schools of Education in the world. It is "Modern" not only in the sense that the information it presents is current, but in the manner in which it engages the reader to understand and apply that information. With its strong basis in current research, and easy-to-use, intuitive features, this book strikes an effective balance between the informational and the pedagogical. It covers trends (both historical and current) in educational finance and includes calculations and problems for students to work, and its "Modern" approach pays close attention to the new realities of accountability, resource allocation, and policy. The case studies and interactive pedagogy make this a very practical text.

## Book Information

Paperback: 416 pages

Publisher: Pearson; 1 edition (September 17, 2006)

## Customer Reviews

I can't say that I learned anything from this book that would actually help me in the classroom. You may need to get through a master level class somewhere but it will not enlighten you in practical manners. Buy used.

I choose this rating because I wasn't thrilled with the paper quality. I don't know if it was available in any other form but it isn't going to be a book that will have a great life span because the paper is so

thin.

This is great book to use if you are in the process of taking higher level graduate courses. The author provides case studies that are relevant and thought provoking.

This text was very dry but communicated a great deal of information. There was little opportunity for practical exercises on some of the concepts, and the text did not lend itself to creating an interesting and inclusive approach to teaching/learning the material.
