Wars Of The Anunnaki: Nuclear Self-Destruction In Ancient Sumer

Synopsis

Examines the Anunnaki gods'™ evolving relationships with humanity, their power struggles, and the details of their nuclear war on Earth. Analyzes the crisis and rationale behind the Anunnaki decision to nuke 5 cities in the Jordan plain, resulting in the obliteration of Sumerian civilization. Draws upon the work of Zecharia Sitchin, the Book of Genesis, Sumerian clay tablets, and archaeological evidence such as ancient radioactive skeletons. Examines the Anunnakis'™ lack of higher consciousness, their reliance on technology, their sacred power objects and sacred geometry, and the possibility of Anunnaki bases on Mars in the distant past. The detonation of nuclear weapons in the 20th century was not the first time humanity has seen such terrible destruction. Drawing upon the work of Zecharia Sitchin, the Book of Genesis, Sumerian clay tablets, and archaeological evidence such as ancient radioactive skeletons, Chris Hardy reveals the ancient nuclear event that destroyed the Sumerian civilization and the power struggles of the gods that led up to it. The author explains how the Anunnaki came to Earth from the planet Nibiru seeking gold to repair their ozone layer. Using genetic engineering, they created modern humanity to do their mining work and installed themselves as our kings and our gods. Anunnaki god Enki had a fatherly relationship with the first two humans. Then Enlil, Enki's™ brother, took over as Commander of Earth, instating a sole-god theocracy and a war against the clan of Enki and humanity for spoiling the Anunnaki bloodlines through interbreeding. This shift imposed a blackout not only of the very human nature of the Anunnaki gods but also of humanity's™ own ancient past on Earth. Two of Enlil's™ attacks against the Enki clan and humanity are described in the stories of the Deluge and the Tower of Babel. His final attempt, after coercing the Assembly of the Gods into voting yes, was the nuclear bombing of 5 cities of the Jordan plain, including Sodom and Gomorrah, which resulted in the destruction of the Sumerian civilization and the Anunnakis'™ own civilization on Earth, including their space port in the Sinai. The author reveals how, after each attempt, humanity was saved by Enki, chief scientist Ninmah, and Enki's™ son Hermes. The author explores how the Anunnakis'™ reliance on technology and their recurrent wars caused them to lose touch with cosmic consciousness. And she reveals how we will be doomed to repeat this dynamic until humanity awakens to our true origins.

Wars Of The Anunnaki by Chris H. Hardy Ph.D is a masterly analysis of part of the hidden history that's been kept from humanity. The author's main premise is that many thousands of years ago an ancient war took place in our planet with advanced weapons. An ancient war that involved nuclear weapons during part of the pyramid wars. To buttress this premise the author highlights various locales that were targets within the ancient war such as Sodom, Gomorrah. Further, Hardy uses sources such as texts like the Nippur Lament, and the Hindu Mahabharata and many others to make her case as sound as possible. The author also notes that lunatic Nergal, with the support of Enlil and more, made it a point of using at minimum 7 nukes to lay waste to those that wish to follow their own path and are deemed inferior to the "gods". As Hardy mentions, Enki, one of the 'Gods', voiced concern over the use of these Awesome Weapons: "...the lands would make desolate, the people will make perish." [sic] [P171] Another intriguing detail is that of the Sinai plain, where the author suspects there's evidence of nuclear weapons use. The author mentions Zecharia Sitchin's thoughts on the matter: "Sitchin attests that the Sinai plain shows an enormous elongated scar, visible from the sky alone, and blackened as if by an immense heat: "The great place (the spaceport and launching strips in the plain) was never to be seen again...but the scare made in the face of the earth that awesome day can still be seen to this very day". [P175] For those skeptical of the author's claims, it's important to note that the claims are not just stated because of the translations of tablets/texts.
