Customer Reviews

Was great to get the book so fast. I received it faster then they said it would get here. Very happy

The book I ordered was in great condition but I ordered on Jan 14 and did not receive it until Feb 4th. I was supposed to be guarenteed a two day delivery because of the price but obviously I didn't get that. My son needed it for a college class and was behind 5 assignments due to the loss in time.

It was the right one for class

Seems like a good quality product.

Met the requirements needed for son's class.
