How To Use The Science Of Mind: Principle In Practice

Synopsis

Everything You Need to Know about How to Use One of Today's Most Powerful Philosophies!"We go in search of that which we already possess, but are not using." So says Ernest Holmes, author of THE SCIENCE OF MIND and founder of the philosophy of Religious Science. God is not far away, but is within ourselves, other people, and everywhere present. Why then, do we fall prey to unwanted conditions - illness, financial lack, relationship difficulties, loneliness and problems of every kind? Written as a manual for the practical applications of the principles set forth in The Science of Mind, this book takes the original philosophy of "change your thinking, change your life," and explains a clear and definite scientific method of prayer that can help you overcome life's obstacles.

Best Sellers Rank: #65,798 in Books (See Top 100 in Books) #116 in [Books > Politics & Social Sciences > Philosophy > Consciousness & Thought](#)

Customer Reviews

Since the movie The Secret came out, there is a renewed interest in what I like to call "Mind Stuff". People want to find out how they can use this Power so that they might experience a better and more fulfilling life. I've been a licensed Religious Science Practitioner for almost a decade and I get a lot of new clients and people attending my classes who want to know how they can start using "Mind Power" to create the life they want. What I tell them usually shocks them. I tell them that they are already using this Power. And they look at me with a scowl on their face, "No I'm not. My life is a mess. I'm in a bad relationship. I hate my job. I drive a 1973 AMC Gremlin and I have .73 cents in my 401k..." And I just smile at them, "Wow. You're really powerful. Look at all these things you created. You're amazing. Why don't you create some more garbage while you're at it..." "Huh?" What I am trying to tell these people (and you) is that we are always using this thing we call, for lack of a

better term, Mind Power. In Truth, all there is, is Mind. What we want to do is to learn how to use this Power consciously and deliberately and this wonderful little book by Ernest Holmes can really cut through a lot of the misconceptions that people have about the Law of Attraction. It's not about holding thoughts or trying to get this Power to work. It is recognizing that the Law of Mind knows how to create. You don't need to know how, just like you don't need to know how an acorn becomes an oak tree, you just need to know that it works and it works every time.
