Implementing And Managing EGovernment: An International Text

Implementing and Managing eGovernment
An International Text

Richard Heeks

DOWNLOAD EBOOK
Synopsis
Check out the companion website at www.sagepub.co.uk/heeks Â Implementing and Managing eGovernment fills an important gap. It provides comprehensive coverage of the e-government issues faced by managers, consultants and other practitioners. Richard Heeks draws on international examples to guide readers through crucial e-government management issues such as the management of strategy and projects; data security; quality; people, money and policies, and dealing with political and ethical challenges. The second part of the book focuses on the implementation of e-government systems. It explores activities such as: feasibility studies, system analysis, system design, construction and marketing. Instructive diagrams, synoptic models and case studies underpin the book’s content while class and practitioner assessments will help readers monitor their understanding. Additional material is also available on a companion Website. This book will be welcomed by students pursuing an MPA, undergraduates studying public policy and administration, and practitioners on government in-service training.
