Norse Magic (Llewellyn's World Religion & Magick)
Elves and dwarves, gnomes and frost giants... Norse mythology is filled with tales of such supernatural beings, nature spirits, and powerful deities. Many people know that the Norse people were fierce warriors, but did you know that they were powerful magicians as well? Norse Magic has everything you need to learn in order to begin practicing Norse spirituality. Discover the history and religion of the Vikings, including Norse mythology, seasonal festivals, and magical techniques. If you are interested in practicing Norse Wicca, you'll learn about the three-fold goddess and the god, as well as how to celebrate the holidays, all from the perspective of Norse Paganism. Discover the secrets of herb magic, cauldron magic, cord magic, elf magic, dwarf magic, and more. These magical techniques are presented in a clear, step-by-step format. The practice of Norse magic enlists the help of the Asa-Gods, Light Elves and good Dwarves. It elicits aid from dead ancestors and the rulers of the Elements. It is an active magic, reserved for participants, not bystanders. In order to work the magic of this system you must attune yourself to the powers of the Elements, calling upon the Asa-Gods and other supernatural beings. Norse Magic includes complete instructions, exercises, and rituals for this technique. The Norse Pagans were one of the last European societies to convert to Christianity, but their Pagan mythology and magic survived and continues to thrive. Norse Magic is your key to the study and practice of this powerful and ancient spiritual system.

Customer Reviews
This is my perspective on this book......This book is filled with many errors. Here goes:1. Djinni, Sylphs, and Gnomes are not a part of the Northern Tradition. Sylphs are Greek, Gnomes are Roman, Djinni are Persian.2. Like many Wiccans, she insists on trying to merge Celtic and Germanic holidays. For an example, Samhain and Yule, all though celebrated on different months, represent the same thing. This is because the "growing seasons" for the Celts and the Teutons were different because they were located in different parts of Europe.3. Some Heathens may feel that "casting a circle" is not a part of Germanic Magic. Not true. This technique is mentioned in Anglo Saxon Manuscripts. See the Travelers Charm in the book Anglo Saxon Magic by Godfrid Storms. Therefore, this can be forgiven.4. She made the error of mentioning Earth, Air, Fire, and Water as elements to be called in the corners. This comes from Greco-Roman sources. However, in the Prose Edda (the creation myth), there are five major elements mentioned: Ice (which is North), Fire (which is South), Earth (which is "in the middle"), as well as Air and Water. The last two are not given any kind of directional qualities in the creation myth, HOWEVER, the Vanahheim is said to be in the west and it is "watery" and their is a Storm Ent in the shape of an eagle the generates winds in Jotunheim, which is "to the east". She does say that one can opt to use the Earth, Air, Fire, Water, and Ice elements and she does alot them in the appropriate directions and even mentioned the dwarves Nordhri, Sudhri, Austri, and Vestri. Therefore, she can be forgiven for this.5. She mentions the "raising the cone of power". Many Heathens may disagree with this practice....
