PowerScore LSAT Logical Reasoning: Question Type Training (Powerscore Test Preparation)
**Synopsis**

PowerScore™'s LSAT Logical Reasoning: Question Type Training provides you with every Logical Reasoning question from LSAT PrepTests 1 through 20. The Logical Reasoning questions are arranged in groups according to the classification system used in the renowned PowerScore LSAT Logical Reasoning Bible and are presented in the same order for easy cross-reference. Containing nearly 1,000 questions in all, including hard-to-find questions from the early PrepTests, this book is an ideal training tool to increase your LSAT Logical Reasoning score. Grouping each question by type provides a number of practical benefits: The questions in this book are an excellent practice resource, and an ideal supplement to the LSAT Logical Reasoning Bible and LSAT Logical Reasoning Bible Workbook. Grouping the questions by classification provides practice with specific types of questions, allowing particular focus on the question types you find most challenging. By examining questions with certain basic similarities, you can analyze the features of each question type in order to better understand how problems are constructed, how they can be most easily recognized, and how they can best be solved. This is especially the case if you have already read the PowerScore LSAT Logical Reasoning Bible. Even if you have not yet read the LSAT Logical Reasoning Bible, this book provides an excellent practice resource, allowing you to develop your familiarity with various question types and with the Logical Reasoning section in general. Full chapters of each of the thirteen question types are included, as well as compilations of questions dealing with Conditional Reasoning, Causal Reasoning, Formal Logic, Numbers and Percentages, and Principles. At the end of this book a complete answer key is provided; however, no explanations are provided. PowerScore offers comprehensive LSAT, GMAT, GRE, SAT, and ACT live and online preparation classes. This book has about 1000 real LSAT practice questions but it’s quite annoying that there are many typos in the answer key. For instance the correct answer for question #21 in Chapter 18 (Number and percentage questions) is put down as "A", during my practice I chose "C" and thus I thought I didn't get it right but also couldn't believe A to be true it just didn't make sense at all. Fortunately I happened to have the actual practice test from which this question was taken and after I checked there it turned out that I got the question right and the powerscore book had a typo in the answer key. The same story has happened to me at least 3 times so far and I haven't yet done half of the questions. The takeaway: if you use this book for practice make sure you double check the correct answers from another sources (answer keys to all of the official tests are available for free online).

I purchased this book with the idea that it would act as a supplement for the Logical Reasoning Bible which does not really have too many questions to practice on. The one issue I had though is that there are no explanations for the answers. There are lots of problems though for each section and it is nicely organized so it follows the types of problems you will encounter (i.e. Must Be True, Parallel Reasoning, etc.) Overall it is definitely worth the buy if you just want to get more practice and can reason the correct answers on your own.

Wish they had put explanations as well. Instead they expect us to post in a free forum n wait for answers if we have a confusion about correct answer. All good, it is nice to have a ton of practice questions lined up. Their bibles are amazing.
