Customer Reviews
I love this book. Let me tell you a bit about myself; I have been told, my entire life how attractive I am by men and women, and yet, I always seem to end up with a broken heart. Of course, the men that I am not interested in chase me like crazy, but I don’t want them, so it has always annoyed me and made me uncomfortable, and made me wonder... gosh how do I get the men that I WANT to act like the men that I DON’T want? What is the key? The men that I do want, always seem to be unattainable.... or, when I do get them, I get so nervous and try so hard that they eventually dump me. I have always marvelled at women who, physically, were less attractive than me, get the men that I wanted! I never understood it... until now. Look, I am not looking to use men or break anyone’s heart, I just need an answer to my own heartbreaks and insecurities and nervousness around men that I really want to be in a relationship with. I don’t want to be used, and I don’t want to hurt anyone. This book is very empowering. It takes you out of your nervousness and puts you in your head, in control. It is like having something to occupy your mind when you are nervous... instead of using that nervous energy agains yourself, you have a plan, you are prepared, you can succeed. Think about our military, our police force, our fire departments... they train, and train, and train, so that when they are in those tough situations, they don’t have time to panic and make a mistake that
could cost them their lives, they fall back on their training and they are able to do courageous and amazing things. This book is a training manual. Not a training manual to manipulate, or hurt, but a manual to give you confidence and something to think about when you are about to; once again... blow it.
