Kisses From Katie: A Story Of Relentless Love And Redemption
The riveting account of a courageous eighteen-year-old from Nashville who gave up every comfort and convenience to become the adoptive mother to thirteen girls in Uganda. What would cause an eighteen-year-old old senior class president and homecoming queen from Nashville, Tennessee, to disappoint her parents by forgoing college, break her little brother’s heart, lose all but a handful of her friends (because the rest of them think she has gone off the deep end), and break up with the love of her life, all so she could move to Uganda, where she knew only one person but didn’t know any of the language? A passion to make a difference. Katie Davis left over Christmas break her senior year for a short mission trip to Uganda and her life was turned completely inside out. She found herself so moved by the people and children of Uganda that she knew her calling was to return and care for them. She has given up a relatively comfortable life “at a young age” to care for the less fortunate of this world. She was so moved by the need she witnessed, she centered her life around meeting that need. Katie, a charismatic and articulate young woman, is in the process of adopting thirteen children in Uganda, and she completely trusts God for daily provision for her and her family. Despite the rough conditions in which Katie lives, she has found a life of service to God to be one of great joy. Katie’s children bring constant delight and help her help others by welcoming whoever comes to their door. As the challenges grow, so does Katie’s faith and her certainty that what she’s doing in Uganda, one person at a time, will have far-reaching rewards. It isn’t the life she planned, but it is the life she loves. To further her reach into the needs of Ugandans, Katie established Amazima Ministries. The ministry matches orphaned children with sponsors worldwide. Each sponsor’s $300/year provides schooling, school supplies, three hot meals a day, minor medical care, and spiritual encouragement. Katie expected to have forty children in the program; she had signed up 150 by January 2008; today it sponsors over 400. Another aspect of the ministry is a feeding program created for the displaced Karamojong people “Uganda’s poorest citizens. The program feeds lunch to over 1,200 children Monday-Friday and sends them home with a plate of food; it also offers basic medical care, Bible study, and general health training. Katie Davis is more than fascinating, she’s inspiring, as she has wholeheartedly answered the call to serve.

Book Information
Hardcover: 288 pages
Publisher: Howard Books; 9.4.2011 edition edition (October 4, 2011)
Language: English
It isn’t often that a book can grab me in the introduction in a grip so tightly I can scarce put it down; but, this one did. It isn’t often I read a book where every word resonated within me like a bell; but, this one did, clanging loudly and forcefully. It isn’t often a book makes me re-examine my core beliefs and values; but, this one did, leaving me shaking some moments, laughing at others and crying at still more. It is a book that is oddly hard to put down yet I had to walk away after every chapter to think about it (and grab a few more tissues). It is a book that stays with you and tickles your conscience; one that keeps you up at night asking yourself questions you don’t really want to confront. This is the story of a young woman named Katie Davis who abandoned her Mid southern upbringing just after graduation from high school to travel across the world and become a modern-day American Mother Theresa. She spends her days ministering to the sick, feeding the poor and changing the family tree of almost everyone she comes in contact with. At the tender age of 22, she has adopted 13 young girls and has created a loving home in the face of adversity that most of us cannot even begin to grasp. Her story is so outrageous that is seemed impossible to me before I started reading. Page by page, word by word, Katie had me hooked. She has a way of writing, of telling her story, that feels like two friends having a heart-to-heart. And what a heart that girl has! I came to believe absolutely what she does to the core: that one individual can change the world, one person at a time. She makes it seem so easy. But Katie believes it so much more strongly than any one person I have ever read about and that is what made this story so inspirational for me. Ultimately, it wasn’t only her Christian convictions (which are cement-hard and awe-inspiring); it is her bravely in the face of absolute defeat and diversity. To face daily the struggles that she does (poverty, disease, famine, abuse and endless, endless need), and keep on going make her a hero that any reader could find inspiration from. But her Christian conviction bothered me. Because this book changed me and I didn’t really want to be changed. This is where
all Christians should be warned because after reading this book, you cannot remain the same kind of Christian you were before. This is a book about stepping out of your Christian comfort zone and living the religion and while that kind of talk is popular right now all over churches all over the land, this girl did it. This book is powerful and comfortable and so very true. It isn’t a book you can cast off after you’ve read it. It isn’t one you can put aside and then move on to the next great hero. It is a story that will stay with you and change you and will cause you to look for ways to create the kind of change you see in the book. And after you’ve read, what are you going to do about it? Because the first question I had was ‘How is it possible to do what she did?’ Now I am left only with this question, ‘How is it possible not to do what she did?’

We moved to Brentwood, Tennessee, in January 2006. My youngest daughter, Caroline, was a junior in high school. You can imagine how nervous we were as parents on how the move would go for an almost-senior (and for the two other kids still in the house). Within days Caroline met two Katies who welcomed her to Ravenwood High School and made her feel as if she had grown up in their circle of friends. I’m still sighing with relief. One of the wonderful Katies - Katie Davis - took a different path after graduation to say the least. She is now the unmarried mother of 14 young girls. Is that even possible? Is this one of those stories about youth gone bad? I need to give a warning to any potential readers at this point. Do not pick up Kisses from Katie if you live a comfortable life and don’t want anything or anyone messing up your comfort zone. Katie’s story is a story of youth gone good. It is both heartwarming and heartbreaking - and in reading it you will never be satisfied with a status quo lifestyle again. If you have never felt a gentle nudge from God that you have something beyond yourself to accomplish in this world - or if you have suppressed and ignored the nudge - this book serves as a loud, clanging, blaring wakeup call to hear and embrace your call. “Kids” can be idealists - and when Caroline told me Katie was going to do a yearlong mission project before attending college, I thought that sounded great - that it would be good for her. Little did I know ... I did know Katie’s parents were quite nervous when she said the project would be serving in an orphanage in Uganda. After surveying the situation in Africa carefully, her dad reluctantly gave his permission for her to go - with the condition that she promise to come back and enroll in college and move on with her life. She was true to her word - but even as she attended classes the fall of her return, she was miserable, thinking only of her "girls" back in Uganda. Katie - high school homecoming queen and student body president and honor student and girlfriend to a handsome, committed, spiritual, star athlete - had every reason to "come home." But her heart was back in Uganda with the motherless children she had fallen in love with. Is it any wonder that the name she
has been given by the people of her village is "Mommy." Katie’s ongoing adventures in Uganda are amazing and fit the adage that truth is stranger than fiction. In her case, it is not stranger, but more incredible. My family has been blessed by the Katie who befriended the "new kid" at school. We've been privileged to meet two of her daughters, Patricia and Grace. Most of all we have been inspired to step out of our comfort zone and to look around to see what God is doing in the world that we need to take part in. I can't recommend Kisses from Katie highly enough for the spiritual blessings you will experience reading this story of relentless love and redemption.

She’s twenty-two years old, raising fourteen little girls in a dot on a map called Uganda. How did Katie Davis, high school student from Nashville, Tennessee, end up mothering children in East Africa? In her own words . . . "Jesus wrecked my life. For as long as I could remember, I had everything this world says is important. In high school, I was class president, homecoming queen, top of my class. I dated cute boys and wore cute shoes and drove a cute sports car. I had wonderful, supportive parents who so desired my success that they would have paid for me to go to college anywhere my heart desired. But I loved Jesus. Slowly but surely I began to realize the truth: I had loved and admired and worshiped Jesus without doing what He said . . . I wanted to actually do what Jesus said to do. So I quit my life. I quit college; I quit cute designer clothes and my little yellow convertible; I quit my boyfriend. I no longer have all the things the world says are important. I do not have a retirement fund; I do not even have electricity some days. But I have everything I know is important. I have a joy and a peace that are unimaginable and can come only from a place better than this earth. I cannot fathom being happier. Jesus wrecked my life, shattered it to pieces, and put it back together more beautifully." Katie’s boldness and compassion truly inspired me. I was amazed to find such wisdom in one so young. The lessons she has learned touched my heart. Soak in her story and let it change you. Then pass it on to every young person you know.
