When I heard I needed to take this test, I wasn't sure what to expect. I didn't know anyone who had taken it before and I was nervous about the types of questions it would hold. I went online to see if there was a discussion forum about the test that I could perhaps enter and get advice. What I found instead, however, was this study guide. Since it was for the exact test I was going to take, I went ahead and bought it. I hoped at the very least it could give me some insight as to what I was in for so I would hopefully know how to study and get ready. What I found was that and much more. The study guide took me through all of the material I needed to know for the test and then it tacked a practice test onto the back. The practice test was the most helpful in seeing what I was going to be in for when the real test came up. The guide even had some secrets to share as far as studying and test taking go. I still can't believe I found a guide that was for the topic I'm studying and the very test I was going to take. It wasn't luck...it was fate!

This is not a mountain of papers for test prep consideration. It is short, sweet, and informative. The best part about this guide is that includes tips for overcoming testing challenges that other guidesÂ¢Â™ will not even think to include.
I which I'm copying below: The study guide covers all of the basic information, that one will need to know in order to pass the exam. So far I am very impressed with the material I have read in the guide. I feel very confident that I will pass my exam, because the study guide covers every area of the general knowledge for physical education. Thanks

I think this study guide provided enough of an overview. .. general info to help me pass.. was a good resource for the price.

I feel that the book has been great I did take the test failed by five points so I will study the materials a little more and retest hopefully this time I will pass.

It is very informative..........With Guaranteed resultsÃ¢Â€Â¦ Who could go wrongÃ¢Â€Â¦ I have the confidence to ACE the test!!!!
