I have never been a good writer in or out of school, since reading this book writing for Academic Success publish by Gail Creswell, and Megan Poore. I hope to create a measure of success as well as my work to help others success. This book speaks for itself, and what writing for academic do? Writing impacts our lives as well as our work. The measures may be quantifiable or qualitative, but they are observable in some way. For example, it reflects the purpose, mission, and hopes of changed to continue whether in school or out within each situation.
