The Awakening Of Faith (BDK English Tripitaka)
This reprint of the seminal translation by the late Dr. Yoshito S. Hakeda (originally published by Columbia University Press), The Awakening of Faith (Dachengqixinlun) is a comprehensive summary of the essentials of Mahayana Buddhism. The translator’s extensive commentary within the text illuminates the meaning of many passages in this important treatise, which was written in an extremely terse style intended for scholarly monastic readers who would have been well schooled in the principles of Mahayana philosophy and thought. The Awakening of Faith has been a highly regarded and influential text in the development and history of many Buddhist schools in China and Japan, including Chan/Zen, Huayan, Shingon, and Pure Land.

The One Mind is our ordinary mind. We just lack faith in this One Mind of a Buddha within us. This small text reveals how to gain confidence in our Buddha nature and how to bring it forth. Utmost recommendation!
